A Message from Ice Company

Welcome to Ice Company. We would like to take this opportunity to illustrate our philosophy as a hockey school, and invite you to join our expanding list of players who have accomplished exceptional goals throughout the years.

Our approach to teaching is a hands on, high-energy program that encompasses skating, puck control, passing, shooting and team play. Our hockey schools are a team comprised of teachers and students, who work together so that each player will become his/her best. We believe that positive reinforcement is one of the strongest learning tools available, and that both confidence and skill levels will soar with our team teaching approach.

Our hockey schools strive to develop players for life, as well as for hockey. We instill the attributes of honesty, fair play, and self-respect in players from day one, and teach a program of discipline and strong work ethic. We will help your child obtain his/her goals through the building of a rock solid foundation, with an emphasis on competitiveness that allows our players to reach that next level of ability and excel at a game that they love.

Ice Company is proud to have so many success stories, and we look forward to making your child another.
